

July 14, 2014 - Maintenance update - Kelvin Heights Golf Course Loop Track.

This morning there will be some Trees removed between the clearing under the Golf Course 10th hole and the green on the 5th hole. This will mean that the track may be closed briefly while the trees are felled. The maximum amount of time that the track would be closed at any one would be 5 min. By the end of Monday we should have completed the work over at that section and will proceed to start at the yacht club. Tuesday, Wednesday and Thursday we will be working from the yacht club back towards the golf club grinding any roots and stumps, there are no trees to be removed along this section so there will be no closures to the track. Apologies for any inconvenience - happy trails!
