HELPERS REQUIRED FOR LAKE HAYES WEEDING PROJECT - THURSDAY NOVEMBER
7th FROM 9.00AM

Last week a keen group met to weed around the many natives planted originally by Queenstown Trails Trust friends and added onto by Neill and Barbara Simpson. We need to continue this effort and plan to meet this Thursday at 9.00am on the south end of Lake Hayes by the highway.

If you can join the weeding team, please bring a grubber or gardening fork, gloves, a high viz vest, morning tea, any (or should that read many) friends and lots of enthusiasm. Parking is on the Queenstown end of the approach to the area and on the lake side of the road.

We need to be well off the road edge. Many helpers should see the main weeding task finished this week and then Neill can spray when the weeds have died and shriveled up!

Please ring Barb Simpson for information - phone 442-2035.
