Wall of Recognition

The Trustees of the Queenstown Trails Trust are delighted to advise that the Wall of Recognition is now complete and sits on top of the Arrow Gorge at the eastern side of the Edgar bridge.

The granting of easements over generous local landowners properties to secure the trail in perpetuity has given this community and visitors the most wonderful asset to use now and for future generations to enjoy. Already there have been well over 100,000 users in not quite 12 months of it being opened, making it the most used Walking and Cycling trail in the country.

We invite all to please take the time to go and view the Wall and be assured of the Trust's and the community's grateful thanks to all who made generous contributions.
