

MEDIA ADVISORY : October 02, 2014

Maintenance on Edgar and Southern Discovery Suspension Bridges from Monday October 13th

For approximately 7 working days from Monday 13th 8-5pm, Royal Tree Ltd will carry out maintenance on both the Edgar & Southern Discoveries swing bridges. While maintenance is taking place, the bridge they are working on will be intermittently closed however it will be open on the hour every hour for trail users to pass.

There will be warning signs at several spots along the trail before users actually get to the bridges and then signs at both ends whilst work is taking place. Both bridges will be open during the weekends and please note that they won't both be closed at the same time – i.e they will start work on one and then after that, start on the second one. Workers will be underneath bridges in harnesses tightening bolts & carrying out inspections etc. - this is weather permitting, if there are rainy days, the maintenance is likely to continue for longer than 7 working days.
